

ISLAND OR WALL INSTALLATION

- Low temperature island cabinet
- Modern squared design
- Push lids closure system
- Narrow depth excellent for small stores
- Easy product access and great product visibility

NEPTUN SINGLE

NEPTUN SINGLE is an island cabinet for displaying and storing frozen products with easy access. This island is an optimal solution for customers that strive to create the best working environment and improve sale.

Modern squared design with glass sides and cover helps to **increase visibility and creates greater impulse sales**. Perfect visibility is additionally supported by LED lighting inside the cabinet. With bottom grid dividers, it enables a transparent classification of goods in the island cabinet. It is

equipped with electronic expansion valve, electronic controlled fans providing lower energy consumption.

NEPTUN SINGLE island can be installed next to the wall as well, which makes this island a **perfect solution for any store layout**. This island cabinet is also available in version with positive temperature.

Temperature class
(refrigerated counter): L1 / M1

Refrigerant: R744 or HFC

CUSTOMIZATION

- Controller options (Danfoss, Carel, Dixell Wurm, Eliwell)
- Electronic expansion valve
- Stainless steel bumper
- Available in negative or positive temperature regime
- Endwalls – blind, panoramic, intermediate
- A variety of interior / exterior colour options

Accessories: plexi full height dividers, base dividers, base grids, etc.

STANDARD EQUIPMENT

- LED lighting
- High efficiency EC fans

NEPTUN Single S:

- Electronic expansion valve
- Stainless steel bumper

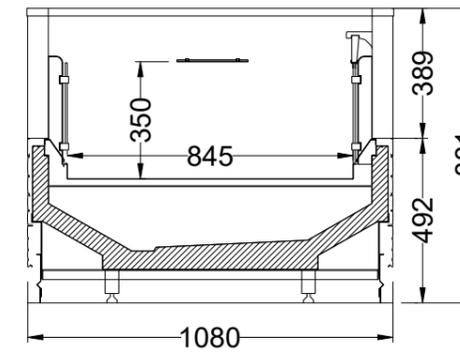

NEPTUN Single H:

- Thermal expansion valve

NEPTUN DOUBLE

NEGATIVE OR POSITIVE TEMPERATURE

- Low temperature island cabinet
- Modern squared design
- Push lids closure system
- Equipped with 2 evaporators for perfect cooling or freezing performance
- Layout flexibility (2 depths, 4 lengths + headpiece)
- Easy product access and great product visibility

NEPTUN DOUBLE is an island cabinet for displaying and storing frozen products. Modern squared design with glass sides and cover helps to **increase visibility and creates greater impulse sales**. Perfect visibility is additionally supported by LED lighting inside the cabinet. With bottom grid dividers, it enables a transparent classification of goods in the island cabinet. For additional display and promotion, it is possible to install a superstructure.

Each tank of this island has its own evaporator and advanced controller to ensure optimal operation and **maximum energy efficiency with low energy consumption**.
